Welcome to Ryan's Internet Cafe

This site contains HIV prevention messages that may not be appropriate for all audiences. Since HIV infection is spread primarily through sexual practices or by sharing needles, prevention messages and programs may address these topics.

If you are not seeking such information or may be offended by such materials, please exit this website.

Testing Positive

*"is not the end of the world"
"is not the end of your relationships"
"is not the end of you"*

If You Are Newly Diagnosed:

- **Condoms**

Drug Interactions

Take the preventive step of determining whether the drugs you are taking interact with each other, or interact with certain foods, and cause a bad reaction in your body. [Read More](#)
